

# Operational AI in action: Healthcare

## Webinar 1

### **The top use cases for AI in healthcare today**

May 2, 2019

2.00 p.m. GMT (3.00 p.m. CET)

---

Introduction

Tomas Karlsson/Enablement lead

#### **Health sector overview**

Rob Dalgety/Product Marketing Director

- AI and deep learning in healthcare
- Required steps for wider adoption

#### **Health status**

Mikael Huss/Data Scientist

- Key AI and deep learning areas
- Breakthroughs impacting patient lives

Summary and Q&A

## Webinar 2

### **Building a deep learning model - The International Skin Imaging Collaboration**

May 9, 2019

2.00 p.m. GMT (3.00 p.m. CET)

---

Introduction

Tomas Karlsson/Enablement lead

#### **AI and deep learning approaches**

Åsa Bertze/Senior Data Scientist

- International Skin Imaging Collaboration
- The Peltarion platform

#### **Building a deep learning diagnostics model**

Åsa Bertze/Senior Data Scientist

- Data and modeling
- Results and fine tuning
- Resources and assets

Summary and Q&A
